

Thank You!

Dear Friend:

Thank you kindly for your recent gift to the American Lung Association and for your commitment to clean air.

With your help, the American Lung Association will continue to work even harder to improve air quality in our community by advocating for policies that decrease pollution.

With your support we have made tremendous strides by defending the Clean Air Act and reducing exposures to toxic pollutants that are directly related to asthma, lung cancer, emphysema and bronchitis.

To learn more about how you can help us in the fight to keep our air clean and healthy, visit: www.californialung.org or call 1.800-LUNG-USA and you will be connected to your local office.

Establish a Charitable Gift Annuity with the American Lung Association

Dear Friend,

Thank you so much for your recent gift to the American Lung Association and for supporting our mission – *To prevent lung disease and promote lung health.*

With your support, the American Lung Association has made tremendous strides in improving air quality by educating people in the community about the quality of the air they breathe, reducing the public's exposure to environmental toxins that can cause lung disease, and remaining the foremost defender of the Clean Air Act.

Your generosity also helps people quit smoking, educates children about how to manage their asthma, and funds research efforts.

Once again, thank you for having made an investment in the lung health of your community.

Help Conquer Lung Disease
Establish a Charitable Gift Annuity with the American Lung Association

Dear Friend,

Thank you so much for your recent gift to the American Lung Association and for your commitment to clean air. With your help, the American Lung Association will continue to work hard to improve air quality in our communities and advocate for your right to breathe clean, healthy air.

We care about every breath you take.

With your support, we have made tremendous strides in improving air quality, by defending the Clean Air Act and reducing dangerous exposures to environmental toxins that can cause lung disease.

To learn more about how you can help improve air quality, please visit us at www.californialung.org or www.lungusa.org, or call us at 1-800-LUNG-USA.

We look forward to hearing from you.
