

 **AMERICAN LUNG ASSOCIATION®**

Thank
You!

Dear Friend:

Thank you for your recent gift to the American Lung Association. Research is central to our mission of promoting lung health and preventing lung disease. With your help, top scientists and physicians in the Bay Area are receiving American Lung Association research grants to find better treatments and cures.

Today we are focusing on asthma, emphysema and lung cancer with the same skill and dedication that we used 100 years ago to successfully combat the tuberculosis epidemic. Your donations help people with lung cancer lead fuller, healthier lives. Because of your support, children with asthma have more effective medications and need not live in fear of having a frightening asthma attack.

Thank you for providing hope to those with lung disease and supporting us as we Improve Life, One Breath at a Time®. To find out more about the life-saving research your donation is helping fund, visit www.californialung.org or call 1.800-LUNG-USA and you will be connected to your local office.

Dear Friend,

Thank you so much for your recent gift to the American Lung Association and for supporting our mission – *To prevent lung disease and promote lung health.*

Your support makes it possible for the American Lung Association to fund scientific research on better treatments for a wide variety of lung diseases, a challenge we've taken on with the same resolve that successfully helped curb the tuberculosis epidemic in the 20th century.

Your generosity also helps people quit smoking, protects the air quality, and educates children about how to manage their asthma.

Once again, thank you for having made an investment in the lung health of your community.

Dear Friend,

Thank you for your recent gift to the American Lung Association. Research is central to our mission of preventing lung disease and promoting lung health.

With your help, scientists and physicians in California and around the country are receiving research grants and working hard to find better treatments and a cure for a wide variety of lung diseases.

Today, we are focusing on asthma, emphysema and lung cancer with the same skills and resolution that we used 100 years ago to combat the tuberculosis epidemic. Your donations help people with lung disease lead fuller, healthier lives, with hope.

Thank you for helping us as we *Improve Life, One Breath at A Time*. To read about the life-saving research you are helping support, please visit us at www.californialung.org or www.lungusa.org.
